

Notes on Constitutional Reform

20th April 2010

This document is the latest in the accumulating series of briefing papers about constitutional reform. Accompanying this document will be the latest draft of the constitution, this draft with tracked changes from the one considered at the last meeting of Council, and the proposed schedules regarding Grant Regulations and Committees.

The Constitution

Most of the changes to the constitution from the last draft are reasonably self-explanatory.

Schedule Regarding Grant Regulations

This schedule is based on the CA's current Grant Regulations, written by Hannah Mattner and passed in 2008.

Schedule Regarding Committees

This schedule is essentially a placeholder. The current draft of the Constitution provides a framework for creating committees, and these will be outlined and governed by this document. However, currently there are no committees of the CA, and this schedule reflects this. If Council decides to form committees at a later date, this schedule can be amended.
